

FLU VACCINE CLINICS

for Prevea Patients

Prevea Health is pleased to offer its patients both traditional and nasal-spray flu vaccines this year. Nasal-spray vaccine (FluMist®) is approved for use in healthy people 2 to 49 years old who are not pregnant.

Patients may receive the vaccine at any of these locations. You do not need to go to the vaccine clinic at the Prevea Health Center where your primary care physician is located.

Appointments are required by calling your physician's office or (920) 496-4700 or (888) 2PREVEA. We will bill your insurance company; however, please check about coverage before your appointment. Please note that many insurance companies now cover the nasal-spray flu vaccine (FluMist®).

Allouez Health Center
